PROFESSIONAL SUMMARY

Versatile IT Professional with 9 years of experience in enterprise software implementation, business analysis, application support, software testing, database management, and project delivery. Proven ability to bridge business and technology, collaborate with stakeholders, troubleshoot complex issues, and deliver high-quality solutions across Banking and FMCG industries in Myanmar and Cambodia.

WORK EXPERIENCE

Auxiliary Police Officer – Aetos Security Management Co.,Ltd.

(Nov 2024 – Present – 1 yrs 9 mos)

- Monitored security operations and responded promptly to incidents, ensuring compliance with operational procedures and safety regulations in **WoodLands CheckPoint**.
- Prepared incident reports, managed emergency situations, and delivered professional customer service in a fast-paced, high-pressure environment

IT Project Manager – Syntrino Solutions Myanmar Co., Ltd.

(Jan 2020 – Dec 2023 – 4 yrs)

- Delivered end-to-end ADMS implementation projects for leading FMCG and manufacturing clients including **Ajinomoto Myanmar, Yum Yum Zarla, The Best Coffee, LMM Cambodia** across Myanmar and Cambodia, supporting over 700+ users.
- Managed cross-functional teams throughout the project lifecycle, including requirements gathering, development coordination, UAT, deployment, and **quarterly software releases**, ensuring successful project delivery.
- Collaborated with business stakeholders, developers, and clients to manage project scope, resolve issues, and obtain **100% stakeholder sign-off** before production deployment.
- Coordinated post-implementation support by resolving **10+ user support requests daily** and developed Tableau and Crystal Reports dashboards to improve operational reporting and business decision-making.

IT Supervisor – Myanmar Tourism Bank Co., Ltd.

(May 2016 – Dec 2019 – 3 yrs 8 mos)

- Contributed to the successful implementation of the **Oracle FLEXCUBE** Core Banking System for a **newly established bank**, supporting the end-to-end deployment and go-live of its first **3** branches across domestic and international banking operations.
- Led functional testing across Oracle FLEXCUBE core banking modules, including **Deposits, Loans, Hire Purchase, Trade Finance, and Foreign Exchange**, while developing user guides, delivering end-user training, and providing production support to ensure a successful system rollout and user adoption across all branches.
- Collaborated closely with the **General Manager, business users, and Oracle consultants** to gather business requirements, coordinate issue resolution, and ensure a smooth production rollout aligned with business and operational objectives.

Software Developer – Global Treasure Bank Public Co., Ltd.

(Dec 2014 – Apr 2016 – 1 yr 5 mos)

- Supported mission-critical **Core Banking operations** for a network of over **100** branches by monitoring end-of-day (EOD) reconciliation processes, investigating production issues, and ensuring uninterrupted daily banking services.
- Contributed the implementation of the New Core Banking System by coordinating with business users, QA teams, and stakeholders to execute functional testing and ensure successful project delivery.
- Developed and enhanced banking web applications, mobile applications, and remittance alert messaging solutions to support the bank's digital transformation initiatives.
